ROCK CREEK PARK. The House District Committee, having heard a number of prominent citizens yesterday on the subject of the establishment of the National Park along the beautiful valley of Rock Creek. decided to report favorably to the House.

Following this action will be the securing of a like report from the Senate committee, which, in view of all the facts, should eventuate similarly.

Hand in hand with the establishment of this Park is the establishment of the National Zoo, which, in the nature of things, should be a part of the Park. The Zoo is almost a foregone conclu-

sion and the Park should also be. We have nothing of this sort at the National Capital, the place of all others which should be so endowed. The question of expense always comes first and in this instance it is really the least important, for the Rock Creek Valley is almost now a Park, and such a Park as no other city in the land can present. Nature has done all the hard work at no expense, and now if Art is permitted to lend her finishing hand the National Capital will have a Park which will be for all time a magnificent monument to the legislation and the legislators instrumental in its foundation and development.

It is a necessity as it will be a luxury. and the thousands who visit it and enjoy its beauties will ever hold in kindly remembrance its founders.

Governments of other countries are never backward in making such provisions for the people, and the capital city of every civilized country on the globe has at least one great Park which is a pride to the Nation. We are behind all others in this respect, and it is not creditable to the American progress of which we boast on all occasions, that it

Congress should examine thoroughly the merits of this case, and in the spirit which has made us the foremest country of the world add another long step to the anal progress we have made in a national existence shorter than that of any of our recognized competitors.

THE BILL WHICH passed the House and Senate last session to create the office of Secretary of Agriculture has now been in conference three weeks or more, and it looks as if the Democratic conferces will delay action until it is too late to put the bill through to be approved by Mr. Cleveland, thereby causing all the work that has been done to be done over again.

When the bill originally passed the House the Signal Service Office was at tached to it, but the Senate cut that our and the bill passed without an amend-

It was then sent back to the House and a conference ordered. The Democrats now want to put the Geological Survey and the Fish Commission under the control of the new office to be created. Major Powell has been sent for to appear before the conferees to give his views on the proposed change.

The Democracts will, in all probability, insist on the Geological Survey amendment until business has reached that stage in the House when it will be impossible to consider any legislation other than appropriation bills. From present indications President-elect Harrison will have to wait at least a year before he can have the appointment of an additional Cabinet officer which Mr. Cleveland had he been re-elected would have had on the 4th of March.

THE warm weather had its effect in the House yesterday. The bluzzard Territories were united in spontaneously cold waves and all, particularly the cold waves. Now let them come on.

THE White Cap nuisance flourishes just now because it has a flavor of novelty about it, and because it gives cover, under its cowardly methods, for the exhibition of private malice and too often persecution. In a country with the cosmopolitan population that distinguishes America from all others, however, it must be short lived and its downfall will be deservedly ignominious.

It may possibly correct one evil, but it assuredly inflicts a thousand wrongs, and its most damning feature lies in the fact that it thrives only outside of the pale of

the Samoan Islands, and raises a hope Propreson Cook's Balm of Life positively that the unprecedented effrontery of that cores dyspepsia. Department on the German question in

Judge Woods' decision in the Dudley case may have been good law and good politics, but it was not good morals. Which fact, however, need not invalidate the decision.

THE SWAIM CASE,

The Retiring Board Reach a Decision in the Matter.

The board of army officers considering the question of Judge Advocate General Swaim's physical disability with a view to his retirement, met again yesterday afternoon, as al-ready stated, and heard the report of the memready stated, and heard the report of the mem-bers of the board. Drs. Baxter and Greenleaf. It was considered by the board in secret ses-sion, and after a half hour's deliberation the board reached a conclusion and adjourned. What conclusion was reached, and what was the report of the examining physicians was not known, as the members of the board re-fused point blank to disclose any information on these points, saying that all would be made on these points, saying that all would be made known when their report is presented to the Secretary of War to-day.

The Rights of Red Men. The meeting of the Washington Ladies' Auxiliary of the Indian Rights Association at the Ebbitt House yesterday morning was largely attended. Herbert Welch, secretary of the Indian Rights Association of Phila-delphia, who has just returned from an ex-tended trip among the Indians in the Terri-tories, made a lengthy address. REASONS

Why Ayer's Sarsaparilla is preferable to any other for the cure of Blood Diseases. Because no poisonous or deleterious

ingredients enter into the composition of Ayer's Sarsaparilla. -Ayer's Sarsaparilla contains only the purest and most effective remedial

properties. - Aver's Sarsaparilla is prepared with extreme care, skill, and cleanliness. - Ayer's Sarsaparilla is prescribed by leading physicians.

-Ayer's Sarsaparilla is for sale everywhere, and recommended by all first-class druggists.

-Ayer's Sarsaparilla is a medicine, and not a beverage in disguise. - Ayer's Sarsaparilla never fails to effect a cure, when persistently used,

according to directions. - Ayer's Sarsaparilla is a highly concentrated extract, and therefore the most economical Blood Medicine in the market.

-Ayer's Sarsaparilla has had a successful career of nearly half a century, and was never so popular as at present. - Thousands of testimonials are on file from those benefited by the use of

Ayer's Sarsaparilla.

STRONTIA

Mineral Spring Water.

This extraordinary water-remarkable as a great natural remedial agent and, at the same time, when carbonated, a most delightful and exhilarating beverage—was discovered in the Centennial Year 1876, on the farm of Mr. O. P. Macgill, in Baltimore County, situated on Green Spring avenue, about five miles north of Druid Hill Park, and one-quarter of a mile from Strontia Spring station, on the Green Spring Strontia Spring station, on the Green Spring Branch of the Northern Central Railway. The circulation is nearly seen hundred feet above tide. Strontia water, while possessing natonishing curative properties, is especially in its highly effervescent state, a delightful and refreshing beverace, promoting digestion, etc.

It will cure Gout and Rheumatten.

Is will relieve any disordered condition of the Liver, Stomach and Baseds. Diarrhosa and Dynamicra.

Atternation and research Pauriness and Parenters. It will restore the Tone of the Stomach and increase the appetite.

It will be found of great service in Scrafulous Affections and Weathess of the Lungs.

In offering this water to the public, the Company desires to call attention to the standing of the citizens who testify to its worth, not knowing of another product which shows at home ligher testimonials of excellence.

MEDICAL CERTIFICATES. From the President of the Board of Health for the State of Maryland.

O. P. Macquai, Esq. Dear Sir.—It gives me great pleasure to state that I was entirely relieved of Muscular Rhenmatism of six months standing by the free use of your Strontia Water. I suffered much pain and inability to use my arms. I tried a number of remedies without effect. Noticing the excellent results in Dr. Chamcellor's case, and having always a bigh opinion of the water, I used it, with the above result, and lave had no return of the Rhenmatism. Sincerely yours,

JACKSON PIPER, M. D.

From the Secretary of the Board of Health for the State of Maryland. BALTIMORE, May 11, 1887.

Cot., O. P. Macchil.

Bear Sir: Your Strontia Water has certainly done me a great deal of good. For several years I suffered painful attacks of Rhoumatic Gout, for the cure of Which I was induced to visit the principal springs and water cures of Europe, as well as many in this country, but without any positive relief. I have received more benefit from thinking Strontia Water than from all other sources, and I must regard it as a very valuable remedial agent. As a table water and food solvent it is unsurpassed, and especially valuable in many forms of Dyspepsia.

Very truly yours.

C. W. CHANCELLOR, M. D.

We could add hundreds of others to the above, but space will not permit. Manner in Which the Water is Put Up

and Sold. and Sold.

Sistentia Water is sold in effervescent condition, in pint, quart and half-gallon glass bottles. Each bottle bears upon its face a yellow label-having a red centre and red side squares, the centre bearing a face simile of the Strontia spring house, which constitutes our Trade-Mark, and a yellow needs tabel having upon it the word "Strontia," The water is also delivered in effervescent condition, in siphons and founts. In the state in which it is taken from the suring, it is sold in pint, quart and half-gallon glass bottles, labeled as above.
